

Vehicle Services

If your tools aren't working, neither are you

For more than 100 years, professional technicians have relied on Ingersoll Rand for quality and performance on the toughest jobs. Our advanced engineering and manufacturing have set a standard of excellence often copied, but never matched. So, don't settle for less. Count on genuine Ingersoll Rand tools, accessories, and equipment.

You can depend on Ingersoll Rand

- Best-in-class power and durability
- Improved ease of use
- Reduced downtime
- World-wide service network

 **Ingersoll Rand**

HAMMERHEAD

LOW PROFILE IMPACTOOL™

2015 MAX

From Ingersoll Rand, the company that invented the Impactool in 1934, comes a revolutionary product that is unlike any other on the market today. The Hammerhead Low-Profile Impactool offers the power of an impact with the reach of a ratchet, and it's going to change the way you work. Say goodbye to awkward extensions and swivel sockets, and watch your productivity soar as you conquer tasks in minutes that once took you hours.

"It's a knuckle saver... It gets into tight spots. You're not taking out half your tool box to get the job done... It' saves time."

- Joe Illan
Community Auto Repair
Union, New Jersey

AWARD-WINNING INNOVATION

Contents

Air Impactools™ and Accessories 6

Ingersoll Rand air Impactools are the tools professional mechanics use when nothing else will do the job. They'll break loose a frozen bolt when others can't make it budge. With fewer working parts, simplified maintenance, and less wasted energy, Ingersoll Rand air Impactools are the finest examples of delivering more power to professional mechanics.

Air Ratchets and Accessories 17

Compact. Convenient. Real time-savers. Air ratchets have become essential elements in every serious toolbox. Ingersoll Rand ratchets combine access and power to make jobs more productive and profitable, and feature unique qualities you won't find anywhere else.

Sockets 21

Backed by an extensive heritage of reliability and innovation, Ingersoll Rand introduces a comprehensive line of industrial-grade sockets that really make an impact.

Air Grinders, Cutting Tools and Accessories..... 28

With high-strength steels, advanced plastics, and new composite materials in today's cars and trucks, you need versatile tools for precise, controlled cutting. Ingersoll Rand cutting tools are the reliable choice of auto body and repair shops, used for everything from muffler and exhaust work to sunroof installations and body repairs.

Air Finishing Tools and Accessories 35

Ingersoll Rand has the most complete line of air finishing tools. Sanders, polishers, and buffers, from traditional styles for heavy material removal to the newest models for excellent control and brilliant surfaces. All Ingersoll Rand finishing tools are designed for long-life and swirl-free finishes.

Air Drills, Screwdrivers, and Accessories 41

Ingersoll Rand air drills have industrial-grade chucks and keyless chuck versions that are extra tough for drilling, sawing, valve guide reaming, cylinder honing, and wire brushing. They are powerful, efficient, and durable with smooth, quiet operation.

Air Hammers and Accessories 45

Our air hammers are designed so you can let the tool do the work, whether it's cutting, punching, chipping, or scraping. Each air hammer comes with a coil spring retainer for fast and easy chisel changes. You can also buy a five-piece chisel set, or get an Ingersoll Rand air hammer kit which includes both the hammer and the chisel set.

Mini Air Tools and Accessories 48

Ingersoll Rand offers a full line of mini air tools — 1/4" & 3/8" mini impacttool, mini random orbital sander, mini polisher, mini surface prep sander, and mini drill driver. All mini tools are also available in a kit.

Air Compressors and System Components 52

For more than 75 years, Ingersoll Rand has been the world leader in air compressors and air system components. We understand rising energy costs and reduced margins require increased reliability and efficiency from not only your air compressor, but your entire air system. Simply stated, your air system is much more than an air compressor. It's the complete system — the piping, filters, dryers, drains, hoses, valves, and point-of-use tools.

Lubrication Equipment and Accessories 67

Ingersoll Rand lubrication equipment reflects the same high standards of performance as our tools and air compressors, with a full range of products that will keep all types of fluids moving efficiently. These products are the result of more than 70 years of experience in pump and air system technology, and include models specifically designed for popular applications.

Accessories 79

We offer an extensive line of accessories to match our tools with the requirements of every job. These accessories put the reliability and quality of Ingersoll Rand behind every job you do.

Pullers and Hoists 90

Ingersoll Rand pullers and hoists are designed to handle tough pulling or lifting jobs with minimal effort by the operator. Whether it's a low-, medium-, or heavy-duty job, you can trust our pullers and hoists to carry the load safely and easily.

Air Impacttools™

There are good reasons why Ingersoll Rand pneumatic Impacttools are so highly regarded by professionals, especially in the automotive service industry. With decades of proven engineering expertise behind them, our Impacttools deliver rugged reliability and power in durable, compact packages. Ingersoll Rand pneumatic Impacttools offer the best power-to-weight ratios available on the market.

2101XP

1/4" Mini Impactool

Whether you're working in tight spaces or doing finely detailed finish work, our mini tools deliver the power, versatility, and durability you want, in a conveniently smaller size

- Hard-hitting 5-vane motor delivers smooth and robust performance
- Easily accessible forward / reverse switch for one-handed operation

**Fastens conveniently
in hard-to-reach
places**

2101K

1/4" Mini Impactool Kit

- Includes 10-piece 1/4" socket set

2015MAX

Air Impactool

This revolutionary product is unlike any other on the market today. The Hammerhead Low Profile Impactool offers the power and speed of an impact with the reach of a ratchet. The combination of MAX power, MAX control, and MAX access now allows you to use an Ingersoll Rand Impactool for virtually any application. Say goodbye to awkward extensions and swivel sockets, and watch your productivity soar as you conquer tasks in minutes that once took you hours.

MAX Power

With 180 ft-lb max torque and 7,100 rpm, Hammerhead offers more than twice the power of the leading competitor's ratchet.

MAX Control

A feather-touch trigger, two-position forward power regulator, and conveniently located forward/reverse ring provide precise control.

MAX Access

A head height of under 2" and reactionless torque allow you to safely use this powerful tool in tight spaces.

216B

In-line Air Impactool

This durable in-line wrench is handy for the cramped spaces common to small engine repair and other general service work. The butterfly-style throttle valve lets you adjust speed smoothly in either direction in one continuous motion.

- 175 ft-lb max torque
- Contoured composite butterfly throttle for comfort and control
- Recessed regulator dial

2115TiMAX

Air Impactool

The new 2115TiMAX delivers best in class performance for a tool less than six inches long and weighing less than two and a half pounds. The minimal size of this tool will allow greater access to tight spaces, while the minimal weight will reduce operator fatigue all while still delivering MAX performance.

MAX Power

300 ft-lbs max power in reverse – that's best in class power performance

MAX Control

Enhanced power settings, a feather touch trigger and patented push button forward/reverse provide maximum control

MAX Reliability

FREE two-year limited warranty with tool registration

**Best power-to-weight
ratio in its class**

231C

Air Impactool

The classic 231C is the most popular tool in its class. Introduced over 25 years ago and continuously refined, it offers the sheer power and performance features to tackle the toughest jobs with ease — as well as proven durability and economy.

- Adjustable power regulator
- Pressure-fed lubrication
- Easy-to-service 2-piece construction

The most popular
Impactool in the world

244A

Air Impactool

Bring out the "big gun" for tire-changing, shock and spring work, front-end work, and other heavy automotive and truck work. The impact mechanism pumps out 500 ft-lb of torque at a free speed of 7,000 rpm to get the job done fast.

- Powerful with smooth, balanced blows
- Pressure-fed lubrication system automatically greases the impact mechanism
- Non-biased 500 ft-lb in forward and reverse

231HA-2

Extended Anvil Air Impactool

The 231HA-2 has set the standard for Impactool performance for over three decades. Refined engineering and design have perfected performance and made the 231HA-2 one of the most popular tire service Impactools ever. This elite mechanism is the perfect balance between superior power and proven durability.

- Pressure-fed lubrication system
- Handle exhaust directs air away from user
- Adjustable power regulation

Top choice in tire
service centers

Sockets

Genuine Ingersoll Rand Impact sockets are built with top-quality materials for performance and durability. For more information, turn to the sockets section — starting on page 21. See pages 14 – 16 for all other Impactool accessories.

2130

Air Impactool

The 2130 has all the performance features you have come to expect from the Ingersoll Rand family of Impacttools. This Impacttool features a powerful twin-hammer mechanism and a composite housing, providing superior ergonomics in a lightweight package.

- 550 ft-lb maximum torque
- Full-stroke tease throttle
- Multi-position power management

Ingersoll Rand power and durability at an exceptional value

232TGSL

ThunderGun® Street Legal™ Air Impactool

As close as you can get to the real racing tools used by 100 percent of NASCAR® pit crews. It features 625 ft-lb of torque in reverse, with 10,000 rpm to deliver pit crew power, speed, and durability.

- Our fastest 1/2" Impactool
- 10,000 rpm for lightning fast removal is best-in-class
- 625 ft-lb of torque

Impact Boots

Even the industry's hardest-working Impacttools could use added protection from the rigors of the jobsite. Our impact boots can be found on page 16. For a complete listing of Impacttool accessories, see pages 14 – 16.

2135TiMAX

Air Impact Wrench

The Titanium 2135TiMAX delivers 1,100 ft-lb of nut-busting torque in a gun that weighs just 3.95 lb. The 7-vane power plant drives enough torque to break away a nut tightened to over 1,100 ft-lb in under six seconds.

MAX Power

780 ft-lb maximum reverse torque from a tool weighing less than 4 lb. — that's the best power-to-weight ratio in its class

MAX Control

Feather-touch trigger, wider range of power regulator settings in forward, always max power in reverse, patented one-hand forward / reverse control

MAX Reliability

Free two-year limited warranty with tool registration

The best power-to-weight ratio in its class

Quiet Tools

All the power, without all the noise.

At Ingersoll Rand, we don't just stand behind our tools; we're equally devoted to the people who use them. We're constantly looking for ways to make your job easier.

With the innovative line of Quiet Tools from Ingersoll Rand, you get durable, reliable tools that deliver the power you need, but with less noise. Our patented Quiet Tool technology reduces the sound levels caused by air pulsating through the impact motor, without compromising our best-in-class torque levels.

Power and performance with less noise? Sure sounds good to us.

Models: 2115QTiMAX, 2125QTiMAX, 2135QTiMAX, 2135QTi-2MAX

Impactool Tune-up Kits

Extend the life of your tools. Even the most durable and reliable tools need preventive maintenance. Our Impactool tune-up kits and full line of Impactool accessories can be found on pages 14 – 16.

261

Air Impactool

The highly regarded 261 model combines compact size at only 8.8" long with high output, which makes it perfect for everything from spring work to pinion nut and track pad removal and major engine teardowns.

- Jumbo hammer mechanism
- Up to 1,100 ft-lb of torque
- Pressure-fed lube system for trouble-free performance and longer life

For optional power regulator, please order part #2920-K329.

259

Air Impactool

The new 259 3/4" Impactool™ delivers the power, durability, reliability, and value to get the job done right. It offers impressive performance, value, and convenience not found in competitive models.

- Smaller and up to 2 pounds (.91 kg) lighter than other 3/4" impacts in its class
- Rocking dog impact mechanism works well on a wide range of air pressures
- Silenced exhaust reduces tool noise while in use

2141

Air Impactool

The 2141 delivers the best power-to-weight ratio and best size ratio in its class. The 2141 also provides great maneuverability for tight, awkward spaces.

- 1,200 ft-lb maximum torque
- Weighs just 7 lb
- Contoured professional touch trigger and ergonomically designed handle for increased comfort

The best power-to-weight ratio in its class

2161XP

Air Impactool

The 2161XP combines a 6-vane, high-output air motor, through-bolt construction, ergonomic handle and housing design to create an Impactool that offers increased power and durability.

- Most powerful 3/4" Impactool in the industry
- Maximum torque of 1,250 ft-lb
- 3-position power regulator and 360° swivel inlet

271

Air Impactool

The shortest 1" air Impactool is also one of the most powerful. It combines a compact size with high power output, making it ideal for tire changing, spring work, pinion nut removal, tractor pad removal, and shock work.

- Impressive power-to-size ratio
- Up to 1,100 ft-lb of torque
- Pressure-fed lube system for longer service life

280-6

Air Impactool

High-production truck tire changing requires the brute force only this jumbo hammer impact mechanism delivers. Reach into deep truck wheels easily with this 6" extended anvil wrench, designed for high-production truck tire changing.

- 1,600 ft-lb of maximum torque
- Jumbo power mechanism for power and durability
- In-handle exhaust directs air away from user

285B-6

Air Impactool

The 285B models combine exceptional power, control and durability. They deliver 1,770 ft-lb of maximum torque @ 120 psi, with 5,250 rpm free speed and a high-efficiency, 6-vane motor. The swept-back 285B handle provides excellent maneuverability.

- Delivers 1,475 ft-lb maximum torque
- Fast-torque™ delivers 1,000 ft-lb in 2 seconds
- Improved feather touch trigger

**Enhanced durability
for longer life**

2171XP

Air Impacttool

The 2171XP combines a 6-vane high output air motor, through-bolt construction, ergonomic handle and housing design to create an Impacttool that offers increased power and durability.

- Maximum torque of 1,250 ft-lb
- 3-position power regulator
- 360° swivel inlet

290

Air Impacttool

Designed for getting into cramped spaces with big power, the 290 has a 3-way adjustable handle. It's a good choice for spring work, tractor pads, bus maintenance, off-road equipment, and farm equipment.

- Up to 1,600 ft-lb of torque

For optional thread-on muffler, order part #2910-674.

2190Ti-6

Air Impacttool

Designed specifically for high-volume fleet service, the revolutionary chainsaw-grip handle provides comfortable control to the operator. The 2190Ti-6 delivers an impressive 1,650 ft-lb of maximum torque in a lightweight package and comes standard with a 6" extended anvil.

- 1,650 ft-lb of maximum torque
- Weighs 15.5 lb
- Extended robust anvil bushing provides long life under heavy shop usage

295A

Air Impacttool

The 295A model combines exceptional power, control, and durability. It delivers 1,770 ft-lb of maximum torque @ 120 psi (1,475 ft-lb @ 90 psi), with 5,250 rpm free speed and a high-efficiency, 6-vane motor. The top-mounted 295A dead handle provides great leverage for difficult underbody work.

- Delivers 1,770 ft-lb maximum torque
- Fast-torque™ delivers 1,000 ft-lb in 2 seconds
- Improved feather touch trigger
- Rubber boots protect tools from exterior damage

Impactool Hammer Kit

See pages 14 – 16 for our full line of Impacttool accessories.

Impactool Tune-up Kits

Extend the life of your tools with genuine Ingersoll Rand repair kits and replacement parts. Every Ingersoll Rand part is specifically designed to enhance durability and improve the productivity of your tool.

If your tools aren't working, neither are you! Protect your tools with genuine Ingersoll Rand parts and services.

Air Tool Lubricants

Regular tool lubrication will keep your tool running at peak performance for a longer time. Our full line of air tool lubricants can be found on page 96.

Ergonomic Accessories

Ingersoll Rand offers a handy line of ergonomic accessories that enable you to work more safely and more comfortably. Our tool boots absorb vibrations and protect the tool from external damage. Ingersoll Rand comfort grips protect you from mechanical shocks and tool vibration, and our braces allow for more consistent torque output and eliminate the need for a dead handle.

Air Ratchets

For more than 100 years, Ingersoll Rand has been designing world-class tools of the highest quality, durability, and reliability. This legacy of excellence and performance is evident in our line of pneumatic ratchets. Smaller in size and more powerful than competitive models, our ratchets are specifically engineered to make your job easier and you more productive. Our ratchets are also very convenient to use, thanks to enhanced ergonomics.

105-D2

Air Ratchet Wrench

The Ingersoll Rand 105 series air ratchets offer professional technicians an outstanding combination of value and performance, delivering impressive comfort and durability.

- 25 ft-lb max torque
- Low profile forward/reverse control
- Head construction offers increased durability
- Ergonomic design

105-L2

Air Ratchet Wrench

The Ingersoll Rand 105 series air ratchets offer professional technicians an outstanding combination of value and performance, delivering impressive comfort and durability. The extended head of the 105-L2 offers longer reach.

- 25 ft-lb max torque
- Low profile forward/reverse control
- Head construction offers increased durability
- Ergonomic design

1105MAX-D2

Air Ratchet Wrenches

With the 1105MAX series air ratchets, you get best-in-class power and speed coupled with superior features to give you MAX power, MAX control, and MAX comfort.

(Also available in 3/8" drive: 1105MAX-D3)

MAX Power 30 ft-lb of torque combined with 300 rpm provides optimal torque/speed combination.

MAX Control Easily accessible variable power regulator combined with feather touch lever offers unprecedented control.

MAX Comfort Ergonomic coupling nut improves handle comfort and composite handle insulates against cold.

Air Ratchet Repair Kits

Keep your Ingersoll Rand air ratchet running strong with our genuine repair kits and parts — found on page 20.

107XPA

Air Ratchet Wrench

Based on the industry's most popular ratchet, the 107XPA delivers an extra measure of durability with an advanced head design, plus a host of other features.

- 54 ft-lb maximum torque
- 360° adjustable exhaust directs air away from the operator and the work
- Variable speed lever-style throttle

109XPA

Air Ratchet Wrench

Optimized gear ratio and airflow for extra performance, coupled with exceptional durability.

- 76 ft-lb maximum torque at 220 rpm free speed
- 360° adjustable exhaust directs air away from the operator and the work
- Variable speed button trigger

1207MAX-D3

Air Ratchet Wrenches

As a member of the Ingersoll Rand family of MAX tools, the 1207MAX series air ratchets combine best-in-class performance and a full complement of premium features to give professional technicians MAX Power, MAX Control, and MAX Comfort. It's another in the long line of tools designed to help make your job easier — and you more productive.

(Also available in 1/2" drive: 1207MAX-D4)

MAX Power	65 ft-lb of maximum torque ensures enough power for tough applications.
MAX Control	Innovative forward/reverse collar, variable-speed power regulator, adjustable exhaust, and feather-touch trigger combine to offer unprecedented control.
MAX Comfort	Ergonomic composite handle is comfortable for extended use.

Air Ratchet Boots

Even the industry's hardest-working air ratchets could use added protection from the rigors of the jobsite. Our air ratchet boots and accessories can be found on page 20

Sockets

Backed by a proud heritage of reliability and innovation, Ingersoll Rand introduces a comprehensive line of industrial-grade sockets consistent with the quality of our best-in-class Impacttools.

- Impact-grade chrome-molybdenum steel provides the durability you expect from a global leader
- Highly visible laser etching for easy size identification
- Nearly 800 Impacttool socket items for virtually any assembly or disassembly job
- Lifetime warranty

From air compressors to Impacttools to sockets (and everything in between), Ingersoll Rand provides the toughest, highest quality products available.

Features and Benefits

Features	Benefits
A Impact-grade toughness	Designed for high-torque applications
B Chrome-molybdenum steel	Forged for high-strength durability
C Laser-etched size labeling	Enables easy size identification
D Electro-phosphate finish on 1/4" to 1" drive sizes	Projects a sleek look and high visibility
E Durable roll stamp feature on 1-1/2", 2-1/2", and #5 Spline drive sizes	Enables easy size identification in harsh work environments
Backed by a Lifetime Warranty	Provides peace of mind with proven reliability

Air Grinders and Cutting Tools

With high-strength steels, advanced plastics, and new composite materials in today's cars and trucks, you need versatile tools for precise, controlled cutting. Ingersoll Rand cutting tools are the reliable choice of auto body and repair shops, used for everything from muffler and exhaust work to sunroof installations and body repairs.

Air Grinders

301

Multi-purpose Air Angle Die Grinder

Part of an expanded line of economical, heavy-duty grinders, the 301 packs valuable features into a compact package. Use it for grinding, edge-breaking, deburring, porting, and polishing. Wherever space is tight, its right-angle configuration provides easy access.

- Compact, lightweight, and easy to handle
- Self-locking throttle
- Precision-machined gearing delivers maximum power transfer

302A

Air Angle Die Grinder

When a straight tool isn't practical for working in confined areas, this economical die grinder with a right-angle head is the one to use. It's compact and well-designed for grinding, porting, polishing, deburring, and breaking sharp edges.

- Precision-machined steel gears
- Positive grip 1/4"-capacity collet chuck
- Self-locking throttle lever

307A

Mini Air Die Grinder

The 307A combines performance and versatility in a lightweight, compact package. It can be used with all types of accessories for porting, weld breaking, and smoothing sharp edges, as well as deburring, polishing, and grinding.

- Standard 1/4" collet for all types of accessories
- Safety lever prevents accidental starts
- Front exhaust helps keep work surface clean

308A

Air Die Grinder

A durable yet economical choice offering longer life and higher free speed at 25,000 rpm, this general-purpose tool is designed for porting, light weld grinding, and breaking sharp edges.

- Comes with two collet wrenches
- Self-locking throttle lever
- Positive grip 1/4"-capacity collet chuck

Carbide Grinding Burr Kits

Our carbide burs set the industry standard for quality, and come in a variety of types, styles, and sizes. See pages 33 and 34 for our complete line of Ingersoll Rand air cutting tools and grinder accessories.

3102

Composite Die Grinder

For the ultimate performance and versatility in a lightweight package with superior maneuverability, these grinders are the perfect choice. The 3102 features a composite grip for superior ergonomics and comfort. These powerful die grinders can be used in various applications including porting, weld braking, deburring, polishing, and grinding, just to name a few.

- 20,000 rpm
- Safety release throttle
- Positive grip 1/4"-capacity collet chuck

3108

Composite Die Grinder

The 3108 features a composite grip for superior ergonomics and comfort. These powerful die grinders can be used in various applications including porting, weld braking, deburring, polishing, grinding, and more.

- 25,000 rpm
- Safety release throttle
- Positive grip 1/4"-capacity collet chuck

3445MAX

Air Angle Grinder

The 3445MAX is the perfect choice for high performance material removal. This 4.5" air angle grinder combines a unique internal governor with a powerful 0.88 hp motor, to give you a best-in-class power to weight ratio grinder that will maximize your rate of material removal. (Also available in 5" 345MAX)

MAX Power 0.88 hp and 12,000 rpm motor delivers the power you need to grind through the toughest job.

MAX Productivity Internal governor maximizes speed under load, increasing your rate of material removal.

MAX Comfort Lower weight and enhanced grip design enables extended usage without fatigue.

326

Cut-off Tool

The heavy-duty cut-off tool is designed for durability and on-the-job performance. Ideal for cutting mufflers, tail pipes, sheet metal, nuts, and bolts.

- Provides 18,000 rpm for fast cutting
- Steel shield deflects debris away from operator
- Large hooked locking throttle lever provides user comfort and safety

3103XP

Mini Surface Prep Sander

Whether you're working in tight spaces or doing finely detailed finish work, our mini tools deliver the power, versatility, and durability you want, in a conveniently smaller size

- Ball-bearing construction enhances durability and smooth power delivery
- Double-sided, adjustable speed settings provide variability for a broader range of applications
- includes 2" and 3" medium backing pads

Remove rough spots quickly and easily

3103K

Mini Surface Prep Sander Kit

- Includes 14-piece 2" and 3" sanding discs

Abrasive Convenience Packs

In addition to our abrasive convenience packs, Ingersoll Rand offers a line of 2" and 3" surface conditioning discs designed to maximize the productivity of our air grinders while ensuring the best possible finishes. See pages 33 and 34 for our full line of cutting tool and grinder accessories.

Surface Conditioning Kits

301-2MK

Surface Conditioning Kit

Ingersoll Rand has packed the 301 in a strong, blow-molded plastic case along with four coarse and four medium grit 2" Roloc™ surface conditioning pads and a disc holder.

301-32MK

Surface Conditioning Kit

This kit contains the 301 in a strong, blow-molded plastic case along with two coarse and two medium grit 3" Roloc surface conditioning pads, two coarse, two medium grit 2" Roloc surface conditioning pads, and two disc holders.

301-3MK

Surface Conditioning Kit

Four coarse and four medium grit 3" Roloc surface conditioning pads are packed in a strong blow-molded case with our popular 301 grinder.

301-K

Die Grinder Kit

Ingersoll Rand has packed the 301 in a strong, blow-molded plastic case complete with 10 mounted grinding tips.

3102K

Die Grinder Kit

For the ultimate performance and versatility in a lightweight package with superior maneuverability in an angle grinder, the 3102 is the perfect choice. The 3102 features a composite grip for superior ergonomics and comfort. This powerful grinder can be used in a variety of applications, including porting, weld braking, deburring, grinding, polishing, etc. The kit includes the 3102 Grinder, 2" and 3" Quick Change Backing Pads, along with a variety of 2" and 3" Quick Change Sanding Disks, 2" and 3" Quick Change Coarse and Medium Polishing Disks, all packaged in a strong, blow-molded plastic case.

307-K

Die Grinder Kit

The 307-K comes with 10 mounted grinding tips in a strong, blow-molded case.

4102K

Surface Preparation Kit

Along with the versatile, lightweight, and powerful 3102 Angle Grinder, this Kit comes along with the ultimate in Random Orbital Sanders, the 4151-HL. The 4151-HL adds to the Kit the benefit of a lightweight, 6" pad, 12,000 RPM, vacuum-ready, random orbital sander for all of the fine-finish requirements for the job at hand. Along with the Angle Grinder and the Random Orbital Sander, the kit includes a 3" Quick Change Backing Pad, 3" Quick Change Sanding Disks, 3" Quick Change Coarse and Medium Polishing Disks, a 6" Hook and Loop Backing Pad, and 6" Sanding Disks, all packaged in a strong, blow-molded plastic case.

3108K

Die Grinder Kit

The 3108 features a composite grip for superior ergonomics and comfort. These powerful die grinders can be used in various applications including porting, weld braking, deburring, polishing, grinding, and more.

Air Cutting Tools

Model	Strokes Per Minute	Weight lb (kg)	Length in (mm)	Average Air Consumption cfm (L/min)	Air Consumption @ Load cfm (L/min)	Sound Pressure / Power dBA	Air Inlet NPTF in	Min Hose Size in (mm)

7802SA

Air Shear

This versatile cutting shear that makes clean cuts in cold-rolled steel up to 20-gauge without chips is ideal for body shops, sheet metal shops, air-conditioning fabricators, plastic fabricators, heating contractors, and machine shops.

- Cuts squares, angles, and circles
- Long-life tool with heavy-duty cutting blades
- Shears most types of plastics and all types of aluminum, tin, and steel

325B

Air Nibbler

Get a bigger bite and better angle cuts with our Air Nibbler. Instead of shearing or sawing, the tool actually "nibbles" cold-rolled steel, plastic, tin, aluminum, and other metals, up to 18-gauge thicknesses at a rate of more than 6' per minute. It's ideal for paint and auto body shops, tinsmiths, and sheet metal shops.

- Cuts out quarter panels without distorting the edges of the material
- Starts cuts in the center of a panel
- Holds a tight 1/4" radius with great accuracy

429

Air Reciprocating Saw

The 429 is a versatile air saw for cutting intricate shapes and light radius curves in all types of plastics, fiberglass, and composite materials, as well as aluminum and sheet metal. This reduced vibration tool is excellent for body shop repair, muffler and exhaust work, and sunroof installations.

- Comes with 6 high-speed steel cutting blades and 2 hex wrenches
- Cuts flat and curved surfaces
- Durable, long-life tool

Saw Blades

Saw blades, cutting tools, and all other grinder accessories can be found on pages 33 and 34.

Carbide Grinding Burr Kits

Ingersoll Rand carbide burrs are titanium nitride (TiN) coated to provide maximum edge retention and corrosion resistance. The TiN coating can improve the average lifetime of the burr by more than three times.

Note: Burrs have a maximum operating speed of 40,000 rpm.

1814TiN

1438TiN

M30TiN

The 30 piece, carbide burr mega set covers a wide range of applications. Handy storage box keeps burrs organized and ready for use.

Part Number		Description
1814TiN	6-piece carbide burr kit	TiN coated carbide burrs — 1/8" shank, 1/4" head diameter with soft-sided case
618TiN	6-piece carbide burr kit	TiN coated carbide burrs — 1/8" shank, 1/4" and 1/8" head diameters with soft-sided case
1818TiN	6-piece carbide burr kit	TiN coated carbide burrs — 1/8" shank, 1/8" head diameter with soft-sided case
1816TiN	6-piece carbide burr kit	TiN coated carbide burrs — 1/8" shank, various head diameters with soft-sided case
1438TiN	6-piece carbide burr kit	TiN coated carbide burrs — 1/4" shank, 3/8" head diameter with soft-sided case
614TiN	6-piece carbide burr kit	TiN coated carbide burrs — 1/4" shank, 1/2" and 3/8" head diameters with soft-sided case
1412TiN	6-piece carbide burr kit	TiN coated carbide burrs — 1/4" shank, 1/2" head diameter with soft-sided case
814TiN	8-piece carbide burr kit	TiN coated carbide burrs — 1/4" shank, 1/2" and 3/8" head diameters with hard case
M30TiN	30-piece carbide burr mega set	TiN coated carbide burrs — 1/4" and 1/2" shank, various head diameters and shapes with hard case

Part Number	Description
9520	3" diameter cutting discs (5 pack)
9521	3" diameter cutting discs (50 pack)

Bi-metal Reciprocating Saw Blades

These Bi-metal technology blades are created using a solid-state diffusion process that applies high-speed steel to both edges of the backing material, which increases the contact area by 170 percent. Bi-metal blades have a new tooth profile that generates more (but smaller) chips: this reduces frictional heat that is generated during the cutting application, which will enhance overall performance.

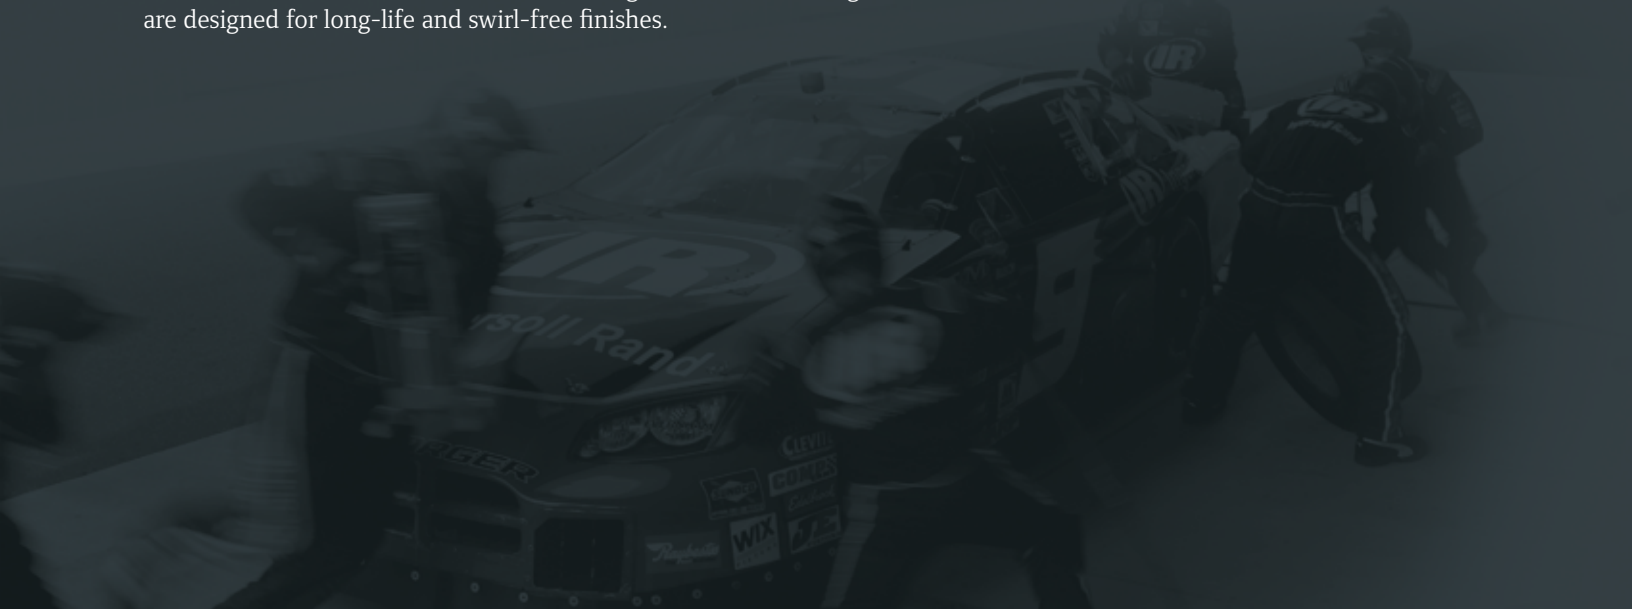

Part Number	Description	Teeth Per Inch	Quantity

Air Finishing Tools

Ingersoll Rand has the industry's most complete line of air finishing tools. Sanders, polishers, and buffers come in a variety of models from traditional styles for heavy material removal to the newest models for excellent control and brilliant surfaces. All Ingersoll Rand finishing tools are designed for long-life and swirl-free finishes.

327LS

Low-speed Air Tire Buffer

Designed for convenience, the many features of the 327LS make it an ideal tool for every tire shop. The quick-change chuck, built-in regulator, and lever-style throttle make patchwork, roughing areas for recapping, and cleaning tire moldings a breeze.

- Trigger design with lock-off feature allows for easy operation and protection from accidental start-up
- Piped-away exhaust (included) directs air away from work area and operator
- Convenient hanger keeps tool within easy reach

312A

Orbital Air Sander 3-2/3" x 6-3/4" Pad

The 312A air orbital sander has a free speed up to 8,000 rpm to make fast work of smoothing fiberglass, wood, and body filler, and to take care of any sanding job on paint, metal, and fiberglass. Plus, you can run the 312A with one hand, using the compact, contoured palm-grip.

- Balanced ball bearing construction
- Automatic release throttle lever with positive stop action
- Built-in regulator for positive speed control

317A

High-speed Air Sander 5" Pad

For small jobs and hard-to-reach places, the 317A is an economical high-speed sander ideal for light sanding, feather edging, and rust removal.

- Easy to handle, compact, and lightweight
- Built-in power regulator
- Comes with two backing pads; one is 3", and the other is 5" (stackable)

315

Twin-piston Straight-line Air Sander 2-3/4" x 17-1/2" Pad

The twin-piston design keeps extra power in reserve to prevent stalling and tackle sanding jobs like smoothing down body filler or shaping and leveling large, flat surfaces.

- 3,000 reciprocating strokes per minute
- Quick-action paper clamps
- Smooth, reliable power

Straight-line Sanding Pads

Constructed with non-metallic material to reduce side strap wear, our straight-line sanding pads are designed specifically for the Ingersoll Rand 315 straight-line sander. See pages 40 for our full line of finishing tool accessories.

* 314A air angle polisher / buffer and 319A sander not pictured.

311A

Dual-action Quiet Air Sander — 6" Pad

A built-in silencer muffles noise as you work with this economical dual-action sander. It's a quality sander used for feather edging, metal preparation, and finish work on body filler. And its dual-action pad motion produces swirl-free finishes.

- Low vibration
- Balanced ball bearing construction
- Adjustable built-in regulator for positive speed control

328B

Gearred Orbital Air Sander — 8" Pad

The smooth strength and power of this air-gearred orbital sander lets you remove heavy material and body filler on large, flat surfaces leaving a clean, swirl-free finish.

- Dual-action pad motion (5/32" orbit)
- Long-life, low-vibration performance
- Balanced ball bearing construction

313A

Angle Air Sander — 7" Pad

With up to 5,000 rpm free speed, you can work faster on light and heavy sanding jobs, including roughing body filler, removing rust, and smoothing welds.

- Heavy-duty motor handles tough jobs
- Lightweight, only 4.5 lb
- Ball bearing construction for long life

318A

Vertical Air Polisher / Buffer — 7" Pad

Buff and polish all painted surfaces easily. This compact, lightweight vertical polisher / buffer gives you the results you want. The variable speed control lever throttle helps eliminate paint burning. Comes complete with a 7" backing pad.

- Long tool life from the planetary gear reduction feature
- Plenty of power from the 1 hp motor
- Handle exhaust directs air away from work area

3128XP

Mini Random Orbital Sander

- Delivers swirl-free finishes when feather edging, removing rust, preparing metal surfaces, or smoothing welds
- Durable ball-bearing construction ensures smooth power delivery
- Includes 3" hook and loop style backing pad

Sands smoothly, leaving no swirl marks behind

3129XP

Mini Polisher

- Free speed of 6,000 rpm delivers the same performance of polishers twice the size
- Double-sided, adjustable speed settings provide variability for a broader range of applications
- Includes 3" hook and loop style backing pad

Ideal for a smooth, professional finish

3128K

Mini Random Orbital Sander Kit

- Includes 71-piece hook and loop discs

3129K

Mini Polisher Kit

- Includes 4-piece hook and loop pads

NOTE: HL models include a hook-and-loop pad.

4151

Vacuum-ready Random Orbital Air Sander

This vacuum-ready, low-vibration model produces an ultra high-quality finish and connects easily to central or portable vacuum systems. The 4151 extracts dust and particles through and around the pad, keeping foreign matter away from the motor. The vacuum sanding pad features a unique design with large 1/2" holes for efficient operation. Virtually all dust is instantly channeled away from the work.

- 12,000 rpm free speed for swirl-free finishes
- Durable, lightweight composite design weighs less than 2 lb
- 3/16" orbit diameter

4152

Vacuum-ready Random Orbital Air Sander

The 4152 sets a new standard in elite automotive finish work. This fine 3/32" orbit sander helps users achieve high-quality paint finishes. The 4152 utilizes a precision ground counterbalance to reduce vibration.

- 12,000 rpm free speed for swirl-free finishes
- Durable, lightweight composite design weighs less than 2 lb
- 3/32" orbit diameter

Vacuum Kits

Keep your work surface and area clean with our Jet-Vac dust extraction system and accessories. See page 39 for more information. Turn to page 40 for all other major components and accessories.

Vacuum Kits and Accessories

Influenced by jet engine technology, the Ingersoll Rand Jet-Vac dust extraction system sucks up more air than it takes to actually run the tool. Perfect for use with our sanders.

BACKING PADS FOR MODELS 313, 314, 318, 319		
313A-825-7	7"	Standard-duty – rigid backing pad
6130A	7"	Heavy-duty – flexible backing pad
DUAL-ACTION BACKING PADS FOR MODELS 310 AND 311		
311A-825-6	6"	Standard-duty – vinyl pad
6120A	6"	Heavy-duty – firm edge for firm support, cloth back
6121A	6"	Heavy-duty – soft edge for medium support, cloth back
6122A	5"	Heavy-duty – firm edge for firm support, cloth back
6123A	5"	Heavy-duty – soft edge for medium support, cloth back
DUAL-ACTION BACKING PAD FOR MODEL 328		
328B-825-8	8"	Standard-duty – pad assembly
POLISHING PAD FOR MODELS 314, 318, OR ANY POLISHER WITH A 5/8"-11 SPINDLE		
6135A	8"	2" thick polyester foam
STRAIGHT LINE SANDING PAD FOR MODEL 315		
315-39	N/A	Non-metallic material; fits similar brands of straight-line sanders

The full range of Ingersoll Rand sanding, backing, and polishing pads will help you complete every sanding, polishing, and grinding job to your satisfaction.

315-39 Straight-line Sanding Pads

For use with model 315. Non-metallic material reduces side strap wear caused by metallic sanding pads. Fits other similar brands of straight-line sanders.

6135A Polishing Pads

Polishing pads have 8" diameter, 2" thick polyester foam. For use with models 314, 318, or any polisher with a 5/8"-11 spindle.

Air Drills and Screwdrivers

Ingersoll Rand air drills have industrial-grade chucks and keyless chuck versions that are extra-tough for drilling, sawing, valve guide reaming, cylinder honing, and wire brushing. They are powerful, efficient, and durable with smooth, quiet operation.

Air Drills and Screwdrivers

7802A

Air Drill

With its industrial-grade 3/8" chuck, this economical choice includes high-quality features for general drilling and hole-sawing jobs. The planetary gear reduction balances the load on bearings and gears for increased tool life.

- Variable speed throttle
- Lightweight, compact drill

7802RA

Reversible Air Drill

Use this economical, high-quality 3/8" drill for all your general purpose drilling, honing, reaming, and hole-sawing. With its reversible 0.5 hp motor, you can also drive and remove screws — including backing out tight screws without a struggle.

- Reversible motor with a quick reverse lever
- Variable speed throttle for starting holes easily
- Smooth, lightweight, compact drill

7802RAKC

Reversible Air Drill / Keyless Chuck

With its industrial-grade 3/8" chuck, this economical choice includes high-quality features for general drilling and hole-sawing jobs. The planetary gear reduction balances the load on bearings and gears for increased tool life.

- Variable speed throttle
- Lightweight, compact drill
- Keyless chuck

7803A

Air Drill

Here's the economical choice for power — a high-quality air drill designed for drilling, hole-sawing, cylinder honing, and any other job that calls for a 1/2" size. Its quality features for long life include the industrial-grade 1/2" chuck, ball and needle bearing construction, and double-reduction planetary gearing.

- No-load speed of 500 rpm
- Auxiliary side handle

Drill Bits

No matter what your drilling needs may be, count on Ingersoll Rand for the bits required to get the job done.

Model	Free Speed rpm	Chuck Size in (mm)	Rated Power hp (kW)	Net Weight lb (kg)	Overall Length in (mm)	Average Air Consumption cfm (L/min)	Air Consumption @ Load cfm (L/min)	Sound Pressure / Power dBA	Air Inlet NPTF in	Min Hose Size in (mm)

7804XP

1/4" Mini Drill / Driver

- Double-sided, adjustable speed settings provide variability for a broader range of applications
- Double-bearing construction for longer life, impressive balance, and reduced vibration
- Reversible motor control

Hard-hitting 5-vane motor delivers smooth and robust performance

7804K

1/4" Mini Drill / Driver Kit

- Includes 22-piece drill bit and driver set

7807R

3/8" Angle Reversible Drill

The 7807R is an excellent choice for service work requiring a compact, low-profile angle head. It's a durable, reliable tool for drilling in all types of materials, including sheet metal, wood, and composites.

- Durable Jacobs multi-craft chuck
- Reversible, with convenient control
- Precision machine gearing ensures maximum power transfer and durability

371

Reversible Pistol-grip Screwdriver

The 371 is an excellent choice for soft-draw applications. This tool is well-suited for service work on HVAC systems, instrument panels, and trim components. It delivers reliable performance for driving sheet metal, self-tapping, and wood screws.

- Positive action clutch, for full torque throughout rundown
- Convenient one-handed operation, with reverse control at trigger
- Variable speed throttle for easy starts

7803-BOOT	Air drill boot with Ingersoll Rand logo printed on red boot	7803A, 7803RA, 7803RAKC

Air Hammers

Ingersoll Rand air hammers are designed so you can let the tool do the work, whether it's cutting, punching, chipping, or scraping. Each air hammer comes with a coil spring retainer for fast and easy chisel changes. You can also buy a five-piece chisel set, or get an Ingersoll Rand air hammer kit, which includes both the hammer and the chisel set.

115

Air Hammer

This powerful yet economical high-speed air hammer is designed for light exhaust system work and general cutting, chipping, and scraping.

- Up to 5,000 blows per minute
- Alloyed steel barrel and heat-treated piston for longer life
- Built-in power regulator and trigger control

Also available: 115K includes 5-piece chisel kit.

116

Air Hammer

The economical air hammer for fast cutting action, especially for medium exhaust system, panel cutting, and general repair work.

- Up to 3,500 blows per minute
- Handles a range of cutting applications
- Longer-life alloyed steel barrel and heat-treated piston

Also available: 116K includes 5-piece chisel kit.

117

Air Hammer

An economical air hammer with a longer piston stroke, this tool is designed for exhaust work, bolt cutting, and front-end work. The trigger control and a built-in power regulator give you full control of the speed and power.

- Longer-stroke piston
- Alloyed steel barrel and heat-treated piston for longer life
- Up to 2,000 blows per minute

Also available: 117K includes 5-piece chisel kit.

121-K6

Air Hammer Kit

Make fast work of body panel crimping and cutting, bushing, driving, shearing, and general front-end work with this air hammer.

- 3,000 blows per minute
- Tough 1-piece alloy barrel
- Kit includes blow-molded case and 6-piece chisel set

Also available: 121/Q tool only.

9500 Chisel Set

A five-piece chisel set in a plastic pouch with 0.401" shank diameters to match your Ingersoll Rand air hammer.

Needle and Chisel Scaler

125

Needle Scaler

For surface preparation work involving the cleaning or removal of paint, rust, dirt, or weld slag, the 125 is a durable, dependable, and economical solution.

- 19 needles
- Each needle diameter measures 1/8"
- 4,600 blows per minute at free speed

125 Chisels

Model	Type	Width* in (mm)
WF-14B-007	Wide Chisel	1-3/8" (35)

950017	Pneumatic cold chisel
950018	Muffler and tailpipe remover
950019	Pneumatic ball joint separator

Mini Air Tools

Our mini tools range in size between 5" and 7-1/4" in length, making them small enough to easily fit in the palm of almost anyone's hand, and ideal for tight spaces and fine detail finish work. They perfectly complement our existing lineup of full-size automotive maintenance and repair tools — delivering the power, versatility, and durability that you have come to expect from Ingersoll Rand.

The mini tools feature composite housings with ergonomic textured grips to provide comfort and exceptional resistance to grease, chemicals, and extreme temperatures. They also feature lightweight, pistol-grip designs with thumb-actuated switches engineered for balance and one-handed operation, variable-speed triggers, and a complete accessory package.

Mini Tools

2101XP Specifications

Drive - in	1/4"
Torque Range (forward) - ft-lb (Nm)	25 - 40 (34 - 54)

Min Hose Size - in	3/8"

3128XP

Mini Random Orbital Sander

- Engineered for the most aggressive sanding applications
- Delivers swirl-free finishes when feather edging, removing rust, preparing metal surfaces, or smoothing welds
- Durable ball-bearing construction ensures smooth power delivery
- Includes 3" hook & loop style backing pad

3129K Specifications

Pad Size - in (mm)	3" (75)
Free Speed - rpm	6,000
Rated Power - hp	0.3
Net Weight - lb (kg)	1.3 (0.6)
Kit Weight - lb (kg)	2.9 (1.3)
Overall Length - in (mm)	6" (152)
Average Air Consumption - cfm	2.2
@ Load - cfm	19.9
Sound (pressure / power) - dBA	83.5/94.85
Air Inlet - in	1/4"
Min Hose Size - in	3/8"

3129XP

Mini Polisher

- Ideal for buffing and polishing paint, metal, and plastic surfaces to a highgloss finish
- Free speed of 6,000 rpm delivers the same performance of polishers twice the size
- Double-sided, adjustable speed settings provide variability for a broader range of applications
- Includes 3" hook & loop style backing pad

Mini Tool Kits

2101K

Mini 1/4" Impactool Kit

Kit Includes 2101XP and 10-piece 1/4" socket set

7804K

Mini 1/4" Drill/Driver Kit

Kit Includes 7804XP and 22-piece drill bit and driver set

3103K

Mini Surface Prep Sander Kit

Kit Includes 3103XP and 14-piece 2" and 3" sanding discs

3128K

Mini Random Orbital Sander Kit

Kit Includes 3128XP and 71-piece hook & loop discs

3129K

Mini Polisher Kit

Kit Includes 3129XP and 4-piece hook & loop pads

Mini Tool Accessories

Air Compressors and System Components

For more than 75 years, Ingersoll Rand has been the world leader in air compressors and air system accessories. We understand the needs and requirements for air systems and the business demands that you face every day. Rising energy costs and reduced margins require increased reliability and efficiency from not only your air compressor, but your entire air system. Simply stated, your air system is much more than an air compressor. It's the complete system — the piping, filters, dryers, drains, hoses, valves, and point-of-use tools.

Selecting an Air Compressor — FAQs

How will compressed air be used?

The type of work being performed is probably the most important factor in selecting a compressor.

Where will the compressor be located?

Indoors: heated environment to prevent air lines from freezing while providing sufficient ventilation to cool compressor where elevated temperatures may exist. Outdoors: protection against ambient environment and provisions for cold-weather starting.

How much pressure (psi) is needed?

Compressor discharge pressure must exceed the psi requirement of all pneumatic tools or equipment being operated.

How much airflow (cfm) is needed?

Cubic feet per minute (cfm) is the measure of airflow the compressor can create. The measurement cfm is stated in two different forms: piston displacement (pd) or actual cubic feet per minute (acfm). Always consider acfm, as it reflects the amount of useable compressed air.

What horsepower is required?

Horsepower is directly proportional to the cfm rating of the compressor. The higher the horsepower, the more air (cfm) the compressor can deliver. Do not rely solely on horsepower when specifying or selecting an air compressor.

What type and size of tank is needed?

The tank provides a reserve of air to meet peak flow and pressure demands. The larger the receiver, the more reserve available. Tanks are available in vertical and horizontal designs; configuration is dependent upon available floor space.

What are the electrical requirements?

Identify available incoming electrical service before specifying an air compressor. Always have a qualified electrician review electrical requirements.

Know Your Power Source

All residential and commercial buildings have 115 V / 60 Hz power. Many residential, commercial, and industrial buildings have 230 V / single-phase / 60 Hz power, but this should be confirmed. When electric power is not available, select a gas engine-driven compressor. Do not use a gas engine compressor indoors.

Single and Two-stage Air Compressors

Single-stage

Single-stage models compress air to a final pressure in one stroke. They generally are used for pressures between 70 and 90 psi (maximum pressure to 135 psi).

- Oversized belt wheel provides reliable design and cooler operation
- Durable cast-iron cylinders, heads, and frame are designed for continuous operation and extended pump life
- Extended service intervals — Ingersoll Rand synthetic lubricant provides 2,000-hour oil change intervals (four times longer than mineral-based lubricants)
- High-efficiency stainless steel finger valves are simple, efficient, and easy to maintain
- Manual thermal overload protection of the motor — no starter required
- Sight glass makes it easy to check oil level

Two-stage

A two-stage model compresses air to an intermediate pressure in the first stage, removes heat compression through an intercooler, and compresses air to a final pressure in a second compression stage. Two-stage compressors are more efficient and are generally used for pressures above 100 psi (maximum pressure to 175 psi).

- Two-stage design provides 175 psi operation
- Removable cylinders are easy to repair and provide even 360° cooling, which helps eliminate hot spots
- One-piece connecting rod for fewer wear parts
- Low oil level switch provides constant protection
- Centrifugal unloader ensures loadless starts, providing maximum starter protection
- Finned copper intercooler runs cooler in even the most demanding conditions
- Overhung crankshaft is precision-balanced to run smoothly and quietly
- Splash lubrication is simple and reliable

Single-stage Air Compressors

Twin-stack

Single-stage — Portable

The Ingersoll Rand twin-stack air compressor is designed to provide power, durability, and portability on the jobsite. Built to last, this oil-lube compressor with durable cast-iron cylinders is designed for 100% continuous-duty applications. The twin-stack includes a 1/4" universal coupler, conveniently mounted regulator and pressure gauge, 4.5-gallon twin tanks, All-Season Select® lubricant, and a power cord.

- Lightweight and compact
- Durable cast-iron construction
- Extended pump life — double the life of similar oil-free products

P1IU-A9

Garage Mate

Single-stage — Portable

Designed for professionals and serious do-it-yourselfers, the Garage Mate compact compressor delivers maximum air for impact guns, ratchets, grinders, drills, nail guns, paint sprayers, sanders, and more. This portable single-stage compressor provides the power you need to get the job done faster.

- 100% cast-iron cylinders and frame
- Manual thermal overload motor protection
- Belt-driven for quiet operation — 80 dBA

P1.5IU-A9

Wheelbarrow

Single-stage — Portable

Ingersoll Rand electric and gas engine-driven wheelbarrow air compressors are lightweight with a low-profile design to provide maximum maneuverability. Built to last, these cast-iron, oil-lube compressors are designed for 100% continuous-duty applications. Includes pressure switch, regulator, and gauge; two quick disconnects to power multiple tools; and twin 8-gallon capacity tanks. Electric model features a belt drive to provide quiet operation (76 dBA), a 6' power cord, and dual voltage (2-hp model only). Where electric power is not readily available, the gas-driven model is powered by either a 5.5-hp Honda or Briggs & Stratton high-performance engine.

- Designed for maximum maneuverability on the jobsite
- Durable cast iron construction
- 100% continuous-duty for tough applications
- Includes two quick disconnects to power multiple tools

Type 30 Value Package

5 to 15 Horsepower

Ingersoll Rand, the world leader in air power, brings industrial-class, two-stage compressors to automotive applications. Featuring a cast-iron pump with splash lubrication for efficient operation and easy serviceability, this new range delivers non-stop performance and reliability for commercial or automotive service applications. Type 30 compressors have been designed to generate maximum air output at 175 psi, with more than 10,000 hours of durability.

- 100% cast iron cylinder head with deep-groove directional cooling fins
- High-efficiency stainless steel valves
- Oversized industrial-grade bearings for extended pump life
- High-efficiency intercooler
- 100% cast iron pump
- High-efficiency inlet air filter with sound attenuation baffles
- Balanced pistons for maximized efficiency and minimized vibration
- Oversized cast-iron balanced belt wheel to allow continuous-duty operation
- Two-year pump warranty with purchase of start-up kit

Purchase an Ingersoll Rand start-up kit and increase the warranty on your pump from one year to two years!

Electric Drain Valves

Ingersoll Rand electric drain valves (EDV) are full-feature automatic electronic drain valves that deliver drier air by removing condensate from compressors, receivers, dryers, aftercoolers, filters, and drip legs. Ingersoll Rand air compressor accessories can be found on pages 63–66.

*Available voltages: 230/1/60 (5 – 7.5 hp only), 200/3/60, 230/3/60, 460/3/60.
Please specify voltage required when placing your order.

Type 30 Premium Packages

In addition to the features on our Value Packages, the Premium Package models include:

- Air-cooled aftercooler to help remove additional moisture
- Low oil protection switch to prevent the pump from running dry
- Electronic drain valve that automatically drains water from compressor tank
- Two-year pump warranty with purchase of start-up kit
- Magnetic motor starter

Purchase an Ingersoll Rand start-up kit and increase the warranty on your pump from one year to two years!

2475N7.5-P

Air Compressors

Lubricants

All-Season Select lubricant is a synthetic, all-temperature blend designed to increase efficiency, reduce wear, and prevent carbon build-up. Use of All-Season Select lubricant extends pump warranty to two years. Ingersoll Rand air compressor accessories can be found on pages 63–66.

Rotary Screw Air Compressors

Rotary screw models compress air through two oil-flooded, intermeshed helical screws. This form of compression offers maximum efficiency at much higher air quality levels than reciprocating models with constant pressure capabilities. Rotary screw air compressors can operate 24/7, continuous-duty at extremely quiet noise levels compared to reciprocating compressors, and have up to five times the operating life.

- Low sound — operates at low sound levels of 64 to 69 dBA
- Closely maintained pressure delivers pulse-free air
- 9,000-hour / 2-year coolant — Ultra-Plus coolant offers superior separation for lower coolant make-up, and will not varnish or sludge; improved cooling characteristics reduce operating temperatures, improving the life of the airend

Our 5-15HP UP Series rotary screw air compressors provide best-in-class performance in rotary screw technology. Each compressor package comes standard with 230 / 460-3-60 ODP electric motor, air-cooled aftercooler to reduce discharge air temperatures, full voltage motor starter that is mounted and wired (wired for 230-3-60 voltage standard), dual control (auto start and stop, constant speed control), low sound / full sheet metal enclosure, package pre-filter, 9,000-hour rated Ultra- Plus coolant, spin-on oil filter and separator element, A.S.M.E coded horizontal receiver tank with electric drain valve, and NEMA-1 electrical protection. These models operate at 64 to 69 dBA.

Recommended accessories:

- Installation kit (page 79)
- Maintenance kit (page 79)

Are you looking to save space and installation cost by having a complete clean, dry air system in a single package? The UP Series 5-15 HP Total Air System (TAS) is an innovative solution to your compressed air needs. The TAS has the same features and benefits of the standard UP Series 5-15HP unit, but also comes standard with an Energy Star cycling refrigerated air dryer with stainless steel heat exchanger, integrated compressor and dryer controls for optimum operation, panel-mounted dew point indicator, dual filters (general purpose and high-efficiency) mounted and piped, single-point condensate drain system with electric drain (115-volt), and high-efficiency moisture separator. These models operate at 64 to 69 dBA.

- Two coalescing filters: general purpose and high-efficiency
- Cycling refrigerated air dryer
- Pre-piped, single-point condensate drain system
- Eliminates up to 80 percent of traditional installation cost of individual air treatment equipment
- Intelligent design separates temperature-sensitive components and air treatment center on "cool side" from heat generating airen on the "hot side"

- Recommended accessories:
- Installation kit (page 99)
 - Maintenance kit (page 99)

Maintenance Kits

The competitively priced Maintenance Kit includes all parts required for every 3,000-hour or annual maintenance of your UP-Series rotary compressor. Ingersoll Rand air compressor accessories can be found on pages 63-66.

Refrigerated Dryers

Ingersoll Rand refrigerated air dryers protect your tools, machinery, and equipment from harmful moisture while saving energy and reducing system downtime. The unique design improves dryer efficiency and minimizes maintenance by using fewer moving parts. The easy-to-read diagnostic controls provide a constant indication of dryer performance. Units are compact, lightweight, and can be easily installed. Ingersoll Rand refrigerated air dryers are ideal for general industrial applications, and they use environmentally friendly refrigerants.

Protect your downstream equipment by preventing 100% saturated compressed air from rusting tools, and washing away lubricants with a refrigerated dryer. Ingersoll Rand's ISO class 6 refrigerated dryer can handle air flows from 7 to 212 SCFM. The dryer's corrosion resistant heat exchanger is reliable and operationally efficient with low pressure drop and optimized dewpoint performance. An enhanced refrigeration control-system and high-efficiency stainless steel moisture-separation ensure a steady long-term supply of dry air. A variable speed fan further ensures continuous heat removal. Simple controls provide user-friendly operation and a fully adjustable programmable electronic drain valve helps minimize air loss.

Enhance your system's protection by adding superior Ingersoll Rand air filters found on page 91. Continuous long-life operation from your refrigerated dryer is enhanced by installing a dryer pre-filter. Prior to the dryer use the recommended GP particulate filters. HE coalescing oil removal filters virtually eliminate cost due to ruined product finishes, scrapped materials or replacement of pneumatic tools and manufacturing equipment destroyed by contaminated air.

Sizing Table

Site conditions will affect the performance of your refrigerated dryer. Determine your site conditions and multiply the dryer capacity by each factor to determine the air flow that dryer is capable of.

Air Compressor Accessories

Electric Drain Valves (EDV)

Ingersoll Rand electric drain valves (EDV) are full-feature automatic electronic drain valves that deliver drier air by removing condensate from compressors, receivers, dryers, aftercoolers, filters, and drip legs.

Features / Benefits

- Extend life of pneumatic equipment and tools
- Eliminate manual draining
- Prevent rusting and clogging
- 2-year warranty
- Maximum 250 psi

In-line Air Filters

Ingersoll Rand coalescing filters save energy and protect your tools, machinery, and equipment from harmful contaminants by effectively removing solid particulates, liquid water, oil, and aerosols from compressed air.

Unique in design, these in-line filters allow simple and fast maintenance with a patented zero-clearance element removal. Lighted indication ensures continued filtration performance. When it is time to replace the filter element, the lighted Element Change Indicator will illuminate with a rapid flash allowing your process to be continuously protected while minimizing the pressure drop in the compressed air system – saving you money.

Our general purpose filters remove particulates down to 1.0 micron, which meets general industry requirements for coarse filtration. Our high-efficiency filters remove contaminants down to 0.01 micron, which meets difficult compressed air filtration requirements.

Start-up Kits for Air Compressors

Start-up kits include all the parts needed to maintain your compressor for one year, plus the added protection of extended warranty coverage. Kits include:

- All-Season Select® lubricant — a synthetic, all-temperature blend designed to increase efficiency, reduce wear, and prevent carbon build-up
- Replacement filter elements
- Engine oil and filters are also included in kits for gas-driven compressors
- 2-year extended warranty (pump only) based on use of All-Season Select lubricant included in kit

Lubricants

All-Season Select Lubricant

All-Season Select lubricant is a synthetic, all-temperature blend designed to increase efficiency, reduce wear, and prevent carbon build-up. It performs four times longer than petroleum-based lubricants. Recommended 2,000 hours of service between lubricant change-out under normal operating conditions.

Maintenance Kits — TS and SS Series Compressors

Ingersoll Rand Type 30 maintenance kits offer all the parts necessary to perform annual factory-recommended maintenance on your Type 30 compressor. Conveniently packaged, the kits can save you 20 to 30 percent more than purchasing parts individually.

Features

- One fill of All-Season Select lubricant
- One replacement air filter element
- All replacement gaskets and O-rings required to clean and inspect valves
- Easy-off maintenance reminder sticker to track when next maintenance is due

Lubrication Equipment

Ingersoll Rand lubrication equipment reflects the same high standards of performance as Ingersoll Rand tools and air compressors, with a full range of products that will keep all types of fluids moving efficiently. They are backed by more than 70 years of experience in pump and air system technology, and include models specifically designed for popular applications.

ARO LM and LP Series Piston Pumps

Built Tough to Fit the Way You Work

Ingersoll Rand LM Series piston pumps deliver unmatched industrial-strength performance for pumping fluids with sizes to fit small (16 gal / 35 lb) or large (275 gal / 400 lb) containers. Working flow rates range from 2 to 6 gallons per minute. Pumps are offered from 3:1 to 50:1 ratios, in order to meet the requirements of any application. Our LM Series is ideal for pumping grease, motor oil, gear oil, or transmission fluid. The simple, durable design allows for piston pump service by any owner or qualified technician. Also look for our convenient grease and oil pump packages.

Features and Benefits

- Pump's patented design improves flow, reduces pulsation, and extends service life
- Offers simple self-service maintenance due to advanced design with 50% fewer parts
- Reduces service time, due to inline service design with no special tools required
- Features stall-free, ice-free air motor with tough, durable housing

PISTON PUMPS

Motor Oil, Gear Oil, and Transmission Fluid

612041-1

This 1:1 ratio pump is ideal for pumping motor oil, gear oil, and transmission fluid. This model fits a standard 55-gallon drum (including bung adapter).

612042-1

Our 1:1 ratio piston pumps are ideal for moving oils and fluids at high volumes. This model is designed for 275-gallon onboard tanks.

662410-B

425 Series pumps are designed with a 9:1 pump ratio, 1/4" air motor, and are ideal for pumping heavy oils over long distances.

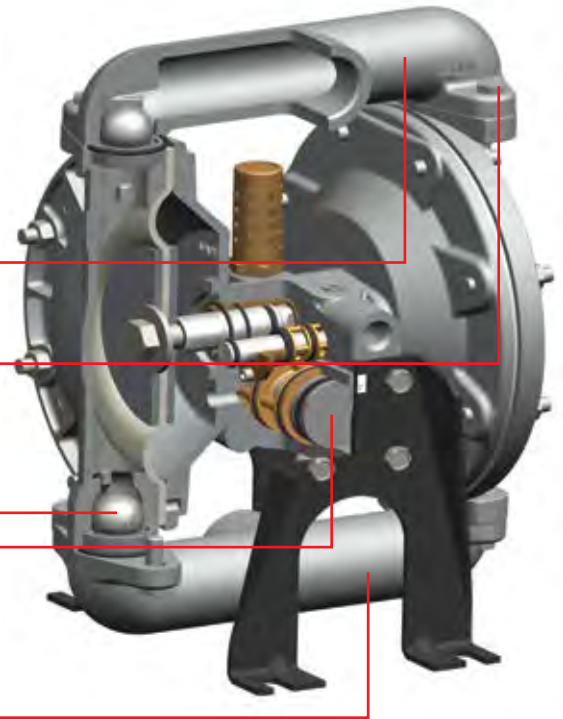

ARO Diaphragm Pumps

Our diaphragm pumps are ideal for pumping oil or other light fluids such as anti-freeze, water, windshield fluid, fuel, solvents, transmission fluid, and waste oil. ARO diaphragm pumps range in size from 3/8" to 2" to meet the requirements of any application.

Features and Benefits

- Ideal for abrasion and solids handling
- From top to bottom, ARO's flap valve pump is your best high solids-handling choice
- Bolted construction for reliability and ease of assembly
 - Bolted is safer
 - Bolted is reliable
 - Bolted is easier to assemble
 - Bolted is less expensive
- Positive priming provides instant start-ups
- ARO's patented "unbalanced" air valve
 - Eliminates shifting / freezing problems
 - Uses significantly less power than competition
 - Does not require lubrication
 - Forgiving in dirty air
- Uninstallable air motor design: SimulShift™
- Broad material selection
- Commitment — Ingersoll Rand diaphragm pumps come with a 5-year warranty.

High-pressure Grease Control Handles

Model	Description	Max Working Pressure psi (bar)	Fluid Inlet NPT (F) in	Fluid Outlet in
GREASE CONTROL HANDLES				
636101	Dispenses lubrication at line pressure for lubricating grease fittings. Does not include nozzle or hydraulic coupler. For applications requiring high-flow capacity. Remove the 1/8" (M) x 3/8" (M) adapter for 3/8" (F) porting.	7,500 (517)	3/8" (F)	11/16 - 16" (M) or 1/8" NPT (F)
636111	Dispenses lubricant at line pressure for lubricating grease fittings. Includes inlet material filter and curved nozzle with hydraulic coupler. Remove the 1/8" (M) x 3/8" (M) adaptor for 3/8" (F) porting.	7,500 (517)	1/8" (M) or 3/8" (F)	Hydraulic coupler
636103	High-pressure booster handle delivers line pressure for normal lubrication. Trigger booster feature delivers 10,000 psi (689 bar) to break loose tougher fittings. Includes curved nozzle with hydraulic coupler, inlet material filter and manual pressure vent for easy disconnection. WARNING: Do not use with whip hose.	7,500 (517)	1/8" (M) or 3/8" (F)	Hydraulic coupler
WHIP HOSES FOR GREASE CONTROL HANDLES*				
629742	Extra-long, wire braid (624201-02) whip hose with hydraulic coupler and swivel. Overall length 29-1/2" (749 mm). For use with coupler 636111 high-pressure control handle. Allows operator to access hard-to-reach fittings.	5,000 (345)	1/8" (F)	hydraulic

*WARNING: Not for use with 636103 high-pressure booster handle.

ARO Flo Series

For more than 100 years, Ingersoll Rand ARO has been an industry leader in the design and manufacture of compressors, pneumatic tools, and air preparation equipment. Clean air is a key ingredient that enables effective and efficient operation of tools, equipment, and machinery in almost every industry. As such, the use of air preparation devices, such as filters, regulators, and lubricators (FRLs) is an excellent means of keeping your air supply in top condition, as well as enabling your tools and equipment to operate at their peak performance. The new ARO-Flo Series FRLs continue the tradition of offering premium products for your operation, and also raises the bar in the industry for safety, flow performance, and modularity.

Liquidator™ Filters / Dryers

Part Number	NPT in	Description	Flow Rate cfm
FILTERS			
TS-4000	1/2"	Liquidator tool saver	60
EAD-6000	1/2"	Liquidator prep station air dryer	60
PDS-2000	1/2"	Liquidator paint booth dessicant dryer	25

Part Number	Stage	Used In	Quantity
REPLACEMENT ELEMENTS			
8844-060	One	EAD-6000	1
8844-060C	Two	EAD-6000	1
8844-460	One	PDS-2000	1
8844-DES	Two	PDS-2000	1
8844-DES-6	Two	PDS-2000	6
8844-060	One and two	TS-4000	1

Features

- Centrifugal spinning
- Stainless steel media
- Friction drying and filtered air to one micron
- Inverse flow
- Automatic drain

Ingersoll Rand Lubricants

It goes without saying that proper lubrication of any tool is essential if you want the tool to last. By lubricating your air tools, you'll prolong the life of tool motors, governors, clutches, and other important impact mechanisms. Ingersoll Rand offers a complete line of specialized oils and greases to complement our full line of air tools.

Air Care Kits

Part Number	Description
AIR CARE KITS	
67-LBK1	Angle grinder care kit includes 10Z4 oil, 4 oz 67 grease, grease gun
105-LBK1	Metallic housings Impactool care kit includes 10Z4 oil, 4 oz 105 grease, grease gun
115-LBK1	Composite housings Impactool care kit includes 10Z4 oil, 4 oz 115 grease, grease gun

Premium Rubber Hose

Part Number	Size
PREMIUM RUBBER HOSE	
38016820	3/8" x 50'

- Premium rubber air hose, specifically designed for heavy-duty applications, such as industrial, maintenance, automotive, and/or construction
- 3/8" x 50' red hose with black Ingersoll Rand logo
- Black hose restrictors on each end provide a 300 psi working pressure and a 4:1 safety burst ratio

Polyurethane Coil Hoses

Part Number	Description
POLYURETHANE COIL HOSES	
P14-10	1/4" x 10' polyurethane coil hose, (1) 1/4" rigid, (1) 1/4" swivel fitting
P14-20	1/4" x 20' polyurethane coil hose, (1) 1/4" rigid, (1) 1/4" swivel fitting
P14-30	1/4" x 30' polyurethane coil hose, (1) 1/4" rigid, (1) 1/4" swivel fitting
P38-10	3/8" x 10' polyurethane coil hose, (1) 3/8" rigid, (1) 3/8" swivel fitting
P38-20	3/8" x 20' polyurethane coil hose, (1) 3/8" rigid, (1) 3/8" swivel fitting
P38-30	3/8" x 30' polyurethane coil hose, (1) 3/8" rigid, (1) 3/8" swivel fitting
P12-10R	1/2" x 10' polyurethane coil hose, (2) 1/2" reusable swivel fittings
P12-20R	1/2" x 20' polyurethane coil hose, (2) 1/2" reusable swivel fittings
P12-30R	1/2" x 30' polyurethane coil hose, (2) 1/2" reusable swivel fittings

Features

- Superior elasticity and coil memory mean a cleaner work environment
- Outstanding flexibility increases operator comfort
- 25% lighter than rubber hose, reducing operator fatigue
- Abrasion and kink resistance increase lifetime
- Tight coil diameter allows easy entry into confined spaces
- Non-marring surface won't harm work pieces
- Broad chemical resistance makes hoses suitable for most environments
- Better than 80% working length extends your work space
- Straight tails on both ends eliminate workstation tangles
- Reusable MNPT fittings allow field retrofits
- Thread sealant on all fittings provides for leak-free joints

Features

- 6-year warranty
- Longer life than PVC
- Reinforced innermost tube, resistant to the materials it is intended to convey
- Extended life bend restrictors
- Increased flexibility in cold temperatures
- Designed to withstand the harshest jobsite conditions
- Extended service life due to number of threads, spirals, and thickness of rubber tube

Spring Balancers

- 19 models to choose from
- Three different series to meet all balancing requirements
- Lifts ranging from 4-1/4' to 8.2'
- Covers weight balancing needs from 1 to 30 lb
- Made of rugged die-cast aluminum
- Safety locking device in case of spring breakage on medium-duty models
- Easy-to-use controls allow for accurate spring adjustment

Pullers and Hoists

Ingersoll Rand pullers and hoists are designed to handle the tough pulling or lifting jobs, with minimal effort by the operator. Whether it's a low-, medium-, or heavy-duty job, you can trust our pullers and hoists to carry the load safely and easily.

P-Series Pullers

They'll pull up to 2,000 lb with no problem — and there's no hard work for you, either. Extremely strong and well-made, the Ingersoll Rand P-Series are high-quality, dependable wire rope pullers for low- and medium-duty pulling and lifting jobs.

- Made for superior strength with a steel frame and handle, alloy steel load hook, 1-piece cast aluminum drum, and solid steel drive and holding dog
- 4:1 design factor for lifting or pulling
- Long-lasting gears through the extra heavy Ingersoll Rand buttress tooth design

P-Series Pullers

C-Series Pullers

The C-Series includes rugged cast aluminum wire rope pullers designed to store more wire rope than all-steel ratchet pullers. With a rigged double line, they handle those long reach pulling or lifting jobs up to 3,400 lb with no problem.

- Extremely strong, with a solid cast steel drive and holding dog
- Heavy-duty cast aluminum drum and lightweight aluminum frame, alloy steel load hook with safety latches

Safe lowering is assured by the ratchet and pawl system. The gear teeth use the Ingersoll Rand buttress tooth design for additional strength and longer gear life.

C-Series Pullers

PT-8 Trolley Series

Plain 1/2 to 5 Metric Ton

Our plain trolley is rated for both manual or powered hoists, and has the versatility to fit most types of beams.

Standard features

- The 5:1 design factor allows the PT-8 Series to be used with both manual or powered hoists; meets pertinent U.S. (ASME / ANSI and CMAA), Canadian, and European standards
- The side plates, including the rail sweeps / drop stops, are made of cold-formed steel for strength, durability, and even load distribution
- The wheel axles are rivet-locked in place so they won't come loose — they are not knurled, welded, or modified bolts
- The wheels are cast iron — the universal tread fits both flat and tapered beams

Suspension bail is supplied with PT-8 trolleys only and is not required for most applications.

- Wheels run on sealed, "lubed-for-life" ball bearings; smoother rolling with less effort and less maintenance
- Wide hanger shaft assemblies allow PT-8 Series trolleys to fit almost any I beam, H beam, or patented track beam up to 8.06 in (205 mm) wide
- PT-8 Series trolley hanger shafts are designed to accept all hoist brands and have a squared out recess to accept round or squared hook shapes; the trolleys are painted black for universal coordination

Silver Series Lever Chain Hoists

3/4 to 6 Metric Ton Lifting Capacity

Meeting ANSI / ASME B30.16 and all pertinent world standards, the “-E” signifies compliance with Europe’s EC95 Machinery Directive.

The patent-pending, arrow-notch free-chain system is simple and reliable. Just one hand turns the indicator, and operators will enjoy the easiest free-chaining we have ever tested. Try to operate a Silver Series hoist in free-chain mode and the brake instantly engages, holding the load and minimizing the risk of an accident. Specify required lift in feet in the “L” position of model number.

Silver Series hoists have a zinc-nickel-chrome-plated finish. It’s more durable and corrosion-resistant than paint. Plus, the Silver Series has the quality features you expect from Ingersoll Rand.

- All-steel construction
- 360° handle rotation
- Rubber handle grip in all sizes
- Reliable disc brake
- Premium-grade alloy chain
- Hardened swivel-latch hooks
- Lightweight
- Low handle force
- Short handle stroke
- Standard lifts of 5, 10, 15, and 2

How to order

Specify required lift in feet in the “L” position of model number.

Example

SL150-15-A = 3/4 ton, with 15 feet of lift.

Model	Rated Capacity		Pull to Lift Rated Load	No. of Chain Falls	A	B	C	D	E	F (min)	Ø	Load Chain Size	
	Metric tons	(lb)	lb		mm (in)	mm (in)	mm (in)	mm (in)	mm (in)	mm (in)	mm (in)	mm	(in)
SILVER SERIES CHAIN HOISTS													
SLB150-L-A	3/4	(1,650)	41	1	158 (6.2)	93 (3.6)	132 (5.2)	308 (12.1)	29 (1.1)	330 (13)	37 (1.5)	6 X 18	(0.24 x 0.71)

SLB1200 L-A	6	(13,200)	57	2	212 (8.4)	118 (4.6)	230 (9.1)	418 (16.5)	50 (2)	640 (25.2)	65 (2.6)	10 x 30	(0.39 x 1.18)

SMB Manual Chain Hoists

Ingersoll Rand SMB Silver Series manual chain hoists offer the strength and durability you need in tough lifting situations. Their high-strength, all-stamped steel construction provides decreased weight and better impact resistance. In addition, the hoists feature roller bearings on input shafts and efficient gear reductions for easier lifting. Standard overload protection reduces downtime and repair costs resulting from abuse.

- Efficient gear reductions minimize hand chain overhauled to lift loads
- Encased and retained roller bearings for increased efficiency and ease of maintenance
- Single chain fall through 3 tons
- Nickel / chrome-plated exterior and zinc-plated frame components for increased corrosion resistance
- Double hand chain guides for smooth operation when pulling excess chain
- Open frame design for easy cleaning and inspection
- CE certified; hoists meet or exceed regional requirements including ASME B30.16, HST-2M
- Hardened swivel-latch hooks

Double load chain guides for proper load-chain tracking and smooth operation around load sheave.

Silver Series SMB manual chain hoists are ideal for these applications:

- Offshore drilling rigs
- Oil refineries and chemical plants
- Shipbuilding and shipyards
- Mining
- Utilities
- Steel mills and foundries
- General construction
- Maintenance and repairs
- Rigging

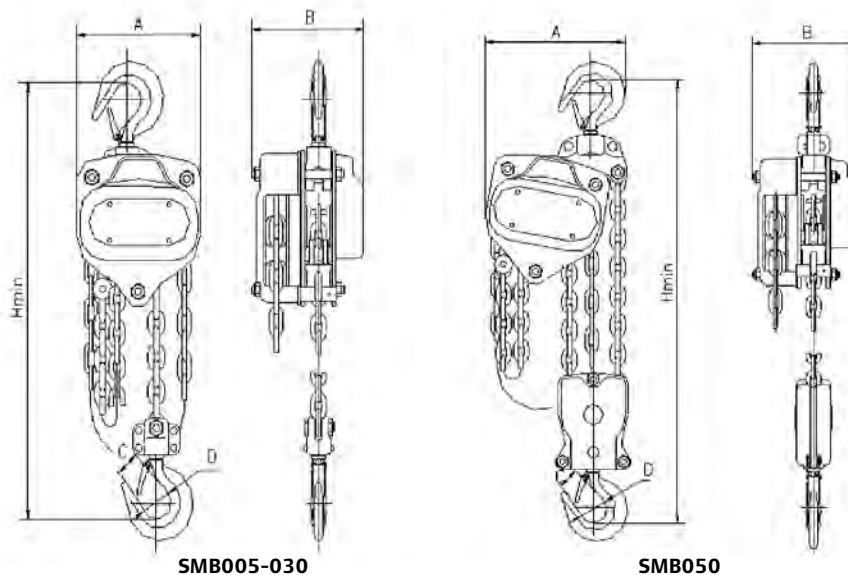

How to order:

Specify required liftin feet in the "L" position and hand chain length in feet in the "H" position.

Example:

10-8VA = 1/2 ton 10 ft lift, 8ft hand chain

Model	Rated Capacity Metric Tons (lb)	No. of Chain Falls	Pull to Lift Rated Load lb	A in (mm)	B in (mm)	C in (mm)	D in (mm)	H (min) in (mm)	Load Chain Size in (mm)	Hoist Net Weight with 10' (3 m) Lift lb
